Cleaning

Solid Surface: Spills should be cleaned up promptly. Clean with a mild detergent or soapy water and soft cloth. For more stubborn marks use a diluted very mild abrasive cleaner with a soft cloth in light circular motions over the entire surface. Finish by cleaning off detergents with a soft wet cloth and towel dry. Avoid using bleach, highly acidic products and coloured abrasive cleaners on your basin.

Softskin: Softskin is a layered finish that is applied to solid surface products. Clean with warm soapy water, or a non-abrasive, non-acidic liquid cleaner and a soft cloth. Finish by cleaning off detergents with a soft wet cloth and towel dry. Do not use harsh materials such as scourers, abrasive detergents or solvents, as the surface may scratch or graze.
