# Astra Walker

For more than twenty years Astra Walker has been dedicated to crafting timeless innovative bathware, that reflects not only our values of quality, design, and sustainability but also the values of those who choose to work with us and our products.

Our considered Classic and Contemporary collections are built to last, with products that are avowedly long-term in their outlook and that minimise their impact on the environment and resources.

Innovation drives our Contemporary Collection which continues to evolve and expand, reflecting Astra Walker's commitment to intelligent, intuitive design, architectural integrity, and honours fundamental simplicity and function.

As an established Australian manufacturer, our collections and manufacturing operations

continue to evolve through progressive design and the implementation of advanced technologies to ensure clean and safe processes are adhered to throughout the complete design and finishing cycle.

Our team works to ensure precision of form, finish, and service, incorporating a commitment to craftsmanship, integrity, and enduring outcomes across all ranges.

Known for a reassuring weight in the hands; Astra Walker continues its legacy of precision, quality, and timeless design while prioritising sustainable and socially responsible practises.

Intuitive Design

The design evolution of our products is intuitive, based on a considered combination of consumer feedback and needs, as well as in response to latest industry requirements and standards.

Australian Made

As both designer and manufacturer we have the advantage of holding complete control over all elements of every single piece of bathware, crafted to the highest standard and certification in Australia. This ensures that spares and replacement parts remain accessible for our products for years to come.

Quality

Our products only cost once. A reassuring weight in the hands, precision of form and a seamless finished milled with the deepest integrity, our products are unmistakable.

Materials & Manufacturing

Our products are made from only the highest quality materials. Superior specification and seamless finishes ensure flexibility, adaptability, durability and therefore, longevity.

Sustainability

Our products minimise their impact on the environment and resources by being useful for as long as possible. We believe that using durable materials, consuming less and living better with items that last longer is the best way to protect our planet's natural resources.

Colours & Finishes

We offer a broad range of PVD, Electroplated, and Living finishes and colours. Advanced technologies, such as PVD, set the benchmark for durability and extend our product's lifespan. Our comprehensive finishes range can be applied across all of our architectural bathware products.

Our PVD (Physical Vapour Deposition) finishing is undertaken by Astra Walker specialists at our North Rocks workshop. This finish sets the benchmark for durability through strict quality control and certification and is both a more environmentally responsible process and an exceptionally resilient surface.

One of our sustainable production processes — brass shavings and swarf from manufacturing are recycled by being melted down into new brass components.

# Spring

Spring responds to the bathroom's rise as the ultimate well-being destination. This architecturally designed collection marks a new direction for tapware which elegantly blends cylindrical and straight profiles. Available with the option of a metal handle insert, Spring can also be customised with a matching stone inlay to reflect the stone joinery specified throughout your project.

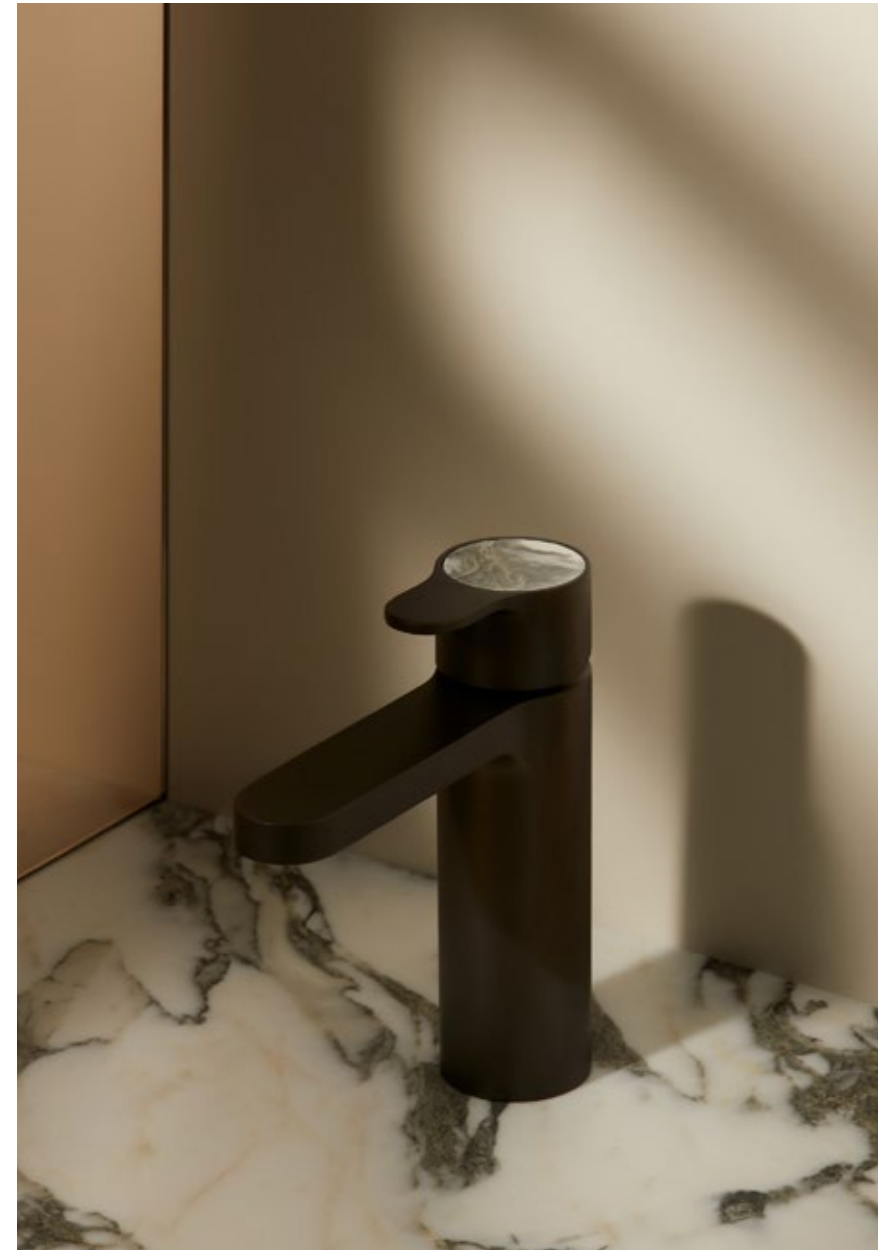

Spring Hob Set & Mixer with Custom Marble Insert in Brushed Platinum A82.07.V6.V2.01

# Pura

Astra Walker are the exclusive supplier of **GSI** — an industry leader in ceramic products that are the definition of quality without compromise. GSI's Pura collection showcases rational design and a confident, understated elegance, enabling seamless integration into a diverse array of designer spaces.

Pura Washbasin A94.96.40.92 in Creta and Metal Washbasin Stand A94.96.40.S.29 in Dark Bronze  
Pura Floor Mounted Swirlflush Toilet Pan A94.66.99.92 in Creta

## Pura Features

### 1. Extraglaze® Antibacterial

Extraglaze® Antibacterial is the new ceramic glaze enriched with Silver and Titanium ions that, being tested and certified for 99.99% antibacterial action, minimises irregularities on the surface of the ceramic while making it more hygienic.

Extraglaze® Antibacterial

Traditional glaze

### 2. Swirlflush®

The Swirlflush® flushing system is characterized by the absence of the traditional rim, thus ensuring perfect cleansing, better drainage, and the quietest flushing system on the market.

### 4. Soft Close

The Soft Close system is designed for slow seat and cover closure, thus preventing accidental falls and potential damage from violent slamming.

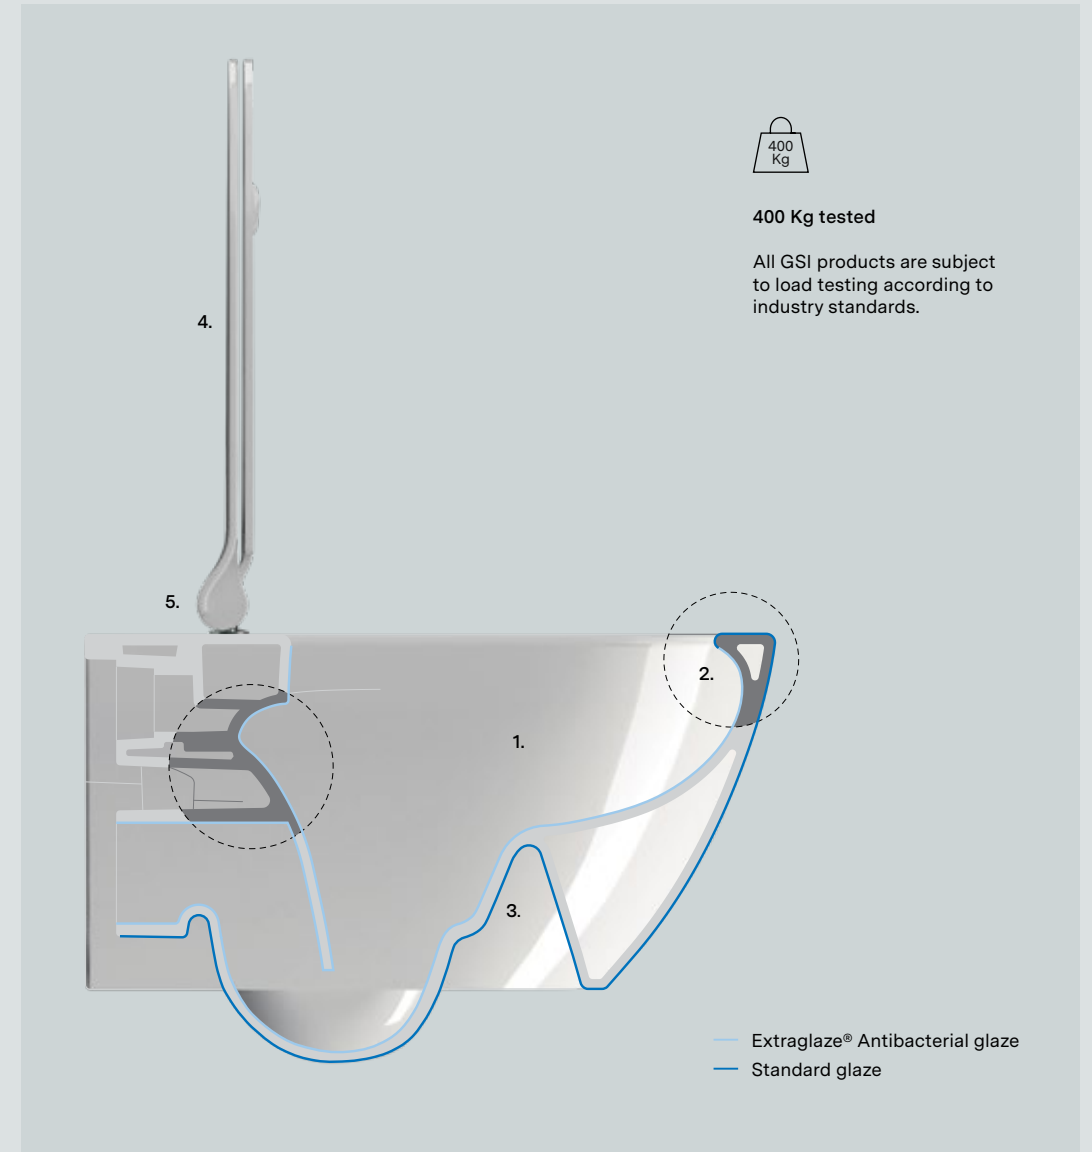

### 3. Dual Glaze

Dual Glaze combines both gloss and matt Antibacterial ceramic glaze. The sections in contact with water are gloss avoiding stains and unhygienic limescale deposits.

### 5. Quick Release

The Quick Release system allows the seat and cover to be pulled out effortlessly by hand without tools, making seat and WC cleaning easier.

400 Kg tested

All GSI products are subject to load testing according to industry standards.

— Extraglaze® Antibacterial glaze  
— Standard glaze

### Italian Made

Combining cutting-edge technology and hand craftsmanship, GSI ceramics are manufactured in Italy to the strictest quality standards.

### Colours & Finishes

Gloss finish available in White. Matt finish available in 9 colours (including white).

### Water Saver

All GSI toilets perform optimal flushing using only 3 litres of water for half-flush and 4.5 litres of water for full-flush.

## Pura Colour & Finish Options

**Matt Ghiaccio**  
.91  
Ghiaccio, derived from the Italian term for ice, is a vibrant and invigorating shade of blue.

**Matt Creta**  
.92  
The warm beige-grey of the Creta finish is inspired by the clay material used in creating ceramics.

**Matt Tortora**  
.93  
A timeless and versatile neutral-grey with the slightest touch of warmth.

**Matt Bistro**  
.94  
Inspired by the soot pigment known by painters as the "colour of shadows" for its ability to add infinite nuances of shades to works of art.

**Matt Agave**  
.95  
A refined, relaxing deep grey-green finish that complements modern lifestyles and interiors.

**Matt Ardesia**  
.96  
Capable of expressing different moods, Ardesia is a warm, almost black matt colour that is both elegant and versatile.

**Matt Cenere**  
.97  
Italian for "ashes", Cenere is a light grey neutral colour that can complement a variety bathroom designs and styles.

**Matt White**  
.98  
A matt white finish that exudes clean and elegant simplicity.

**Standard Gloss White**  
Radiating a bright, modern and polished appearance.

# Colours & Finishes

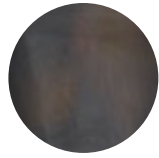

We are the market leader in premium tapware finishes including PVD, Electroplated, and Living finishes. Our bespoke range can be applied across all of our architectural bathware products.

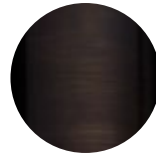

A warmly lit grid-style display, showcasing mixers from the Icon collection in a range of bespoke premium finishes at our Brisbane showroom.

Astra Walker

Living

**Aged Brass**  
.05  
An accelerated aging process. This finish continues to evolve as it reacts to its environment, lightening and darkening creating a beautiful organic appearance.

**English Brass**  
.16  
Chemically treated brass with an oxidising solution, finely brushed back. This finish continues to evolve in its environment, revealing the lustre of brass.

**Eco Brass**  
.18  
A worn appearance created by mechanical vibration. This finish will evolve by reacting to its environment, lightening and darkening to create a beautiful organic appearance.

**Natural Brass**  
.20  
Highly polished solid brass. This finish continues to evolve as it reacts to its environment, dulling and developing an organic patina appearance.

**Charcoal Bronze**  
.14  
Chemically treated brass with an oxidising solution. This finish continues to evolve in its environment, revealing the lustre of a brass and copper substrate.

Stable

**Nickel PVD**  
.04  
Rich and warm appearance. This timeless PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

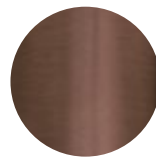

**Chrome**  
.00  
Electroplated chrome. This finish is exceptionally durable and exudes a polished shine. A true classic and timeless in its appearance.

**Satin Chrome**  
.07  
Satin chrome without any brushed lines. This finish has a matte blue-white appearance that is understated and contemporary.

**Sydney Bronze PVD**  
.37  
Sydney Bronze boasts a beautiful brass undertone that adds an element of elegance, while still retaining the warm, inviting feel of a classic bronze finish.

**Burnished Bronze PVD**  
.36  
Burnished Bronze, a finish that exudes a subtle, matte glow. Its rich earthy colour tones add a touch of elegance to any space.

**Champagne Brass PVD**  
.35  
Subtle warmth of brass and finely brushed lines. This stylish PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

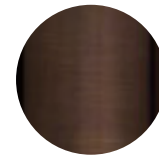

To specify colour required, add the colour number to end of standard product code.

Colour & Finishes

Stable (continued)

**Urban Brass PVD**  
.19  
Delicately brushed lines give a brushed brass appearance. This sophisticated PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

**Dark Bronze PVD**  
.29  
Layered depth and warm in appearance. This elevated PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

**Matt Black**  
.02  
Electroplated black chrome, plated onto a satin nickel base. This is a matt finish that is bold and contemporary.

**Stainless Steel**  
.27  
Solid 316 marine grade stainless steel. This finish has exceptional durability and longevity. *Note: This finish is only available on selected products in the Icon Collection.*

To specify colour required, add the colour number to end of standard product code.

**Brushed Platinum PVD**  
.01  
A finely brushed substrate reflecting a stainless steel appearance. Elegant and sophisticated, this PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

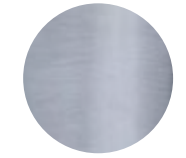

**Tuscan Bronze PVD**  
.17  
Subtle warmth of copper and finely brushed lines. This considered PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

**Gloss Black**  
.15  
Electroplated black chrome, plated over nickel. This is a gloss finish and reflects prestige and quality.

**Ultra PVD**  
.03  
Brass gold tones with a polished appearance. This PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

**Brushed Chrome PVD**  
.06  
Silver in appearance with fine brushed lines. Minimal and contemporary, this PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

**Iron Bronze**  
.13  
Stable and hard-wearing, this discerning finish features bronze undertones with a velvet-like sheen and a smooth, matt appearance.

**Ice Grey PVD**  
.10  
A subtle black lustre and soft brushed lines. This refined PVD finish is highly resistant to scratching, tarnishing, abrasion, and discolouration.

**French Gold**  
.11  
Alloy of 23ct gold with a brushed texture. This finish has a matt appearance and is strikingly luxurious with a darker and richer gold tone.
