

SENSOWASH® STARCK F

The most natural form of hygiene possible: cleansing with water.

Your Future Bathroom

BATHROOM COLLECTIVE

ODURAVIT

SensoWash®

Naturally clean and fresh. Nothing is as thorough, as hygienic, as natural and as refreshing as cleansing with water. This is why the shower-toilet – a toilet-bidet combination – is becoming increasingly popular. Considerably softer and gentler than toilet paper, water also provides freshness. The shower-toilet leaves users feeling clean and refreshed. Duravit's latest contribution to the topic is SensoWash®: an innovative range of high-quality shower-toilets that meets every requirement for the contemporary bathroom – hygienic cleanliness, high operating comfort and sustainable design.

Duravit WC technology for improved cleanliness and hygiene.

Duravit Rimless®

Duravit Rimless® features impressive performance, efficiency and hygiene. The open design of the toilet rim enables a new type of flushing action: resulting in a dynamic and powerful flow of water that rinses the entire inner surface of the bowl. This ensures perfect and hygienic flushing results.

HygieneGlaze

HygieneGlaze 2.0 The durable glaze baked into the ceramic is not only especially effective, but also acts very quickly. After just six hours, 90% of bacteria are killed and after 24 hours 99.999 % have been eliminated, an unprecedented level. Not available in combination with WonderGliss.

WonderGliss

WonderGliss. The coating, which is burned into the ceramic, detracts grime and lime scale while enabling deposits to flow away more easily with water. Not available in combination with HygieneGlaze 2.0.

In principle, good design is actually quite simple.

Clear forms and uncompromising functionality for maximum comfort. Features that are unmistakably 100% Original Duravit Design. The same is true of SensoWash®: whether the emphatically streamlined look of SensoWash® Slim, the gentle curve of SensoWash® Starck C or the precise, harmonious unity of the SensoWash® Starck f or SensoWash® i. All aspects of the SensoWash® design enhance the bathroom's look, feel and functionality for maximum user wellbeing.

**Comfort right from the start.
Thought-out down to the very last detail.**

Can be individually configured and controlled using the SensoWash® app.

The innovative remote control with its flat, elegant design feels pleasant in the hand, and all functions are controlled intuitively. Maximum comfort is guaranteed thanks to technical finishing touches such as the motion sensor for automatic lid opening through the seat sensor up to a wide range of setting options for seat heating, for the water spray, and the controllable warm air dryer. The shower-toilet is individually configured using the associated SensoWash® app. The app can equally be used as remote control.

SensoWash® Starck f

Duravit and Philippe Starck present SensoWash® Starck f, a new shower-toilet generation for state-of-the-art, natural toilet hygiene. All components have been optimized so that all of the technology is “invisibly” located within the ceramic body. The flat seat and the white cover located behind it form a precise, harmonious unit – a shower-toilet with the latest, comfort-enhancing technology in an uncompromising, minimalistic look. Available in the versions SensoWash® Starck f Plus and SensoWash® Starck f Lite.

of the lid

Duravit Rimless®
flushing technology

Seat sensor

Seat heating

Night light:
illuminated inner bowl

HygieneGlaze 2.0
ceramic glaze

SensoWash® Starck f

The functions

Warm air dryer: The use of the various shower functions is followed by a gentle flow of warm, drying air. The temperature of the warm air dryer can be adjusted using the app. With this function, too, it is possible to save personal preferences and to retrieve them.

Rearwash: Pleasant and safe cleansing. Water temperature, water spray intensity and the spray wand position can be individually adjusted and saved. The Comfortwash for an extra-thorough wash, the spray wand moves forwards and backwards. The spray wand and nozzle are cleaned automatically before and after each use.

Seat heating and energy saving mode: The ergonomic, heated toilet seat feels pleasant and its temperature can be individually controlled. In energy saving mode the seat heating is only activated at individually specified times and days and turned off afterwards. This means it can be switched off during the night, for example.

Ladywash: Specially developed for female users, the Ladywash uses a delicate water spray for gentle cleansing. Water temperature, water spray intensity and the spray wand position can be individually adjusted and saved. The Comfortwash offers gentle cleansing. The spray wand and nozzle are cleaned automatically before and after each use.

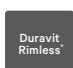

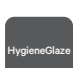

Night light: illuminated inner bowl. When it's dark, a night light function provides orientation and safety, without interrupting the body's repose.

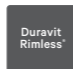

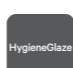

SensoWash® Starck f

The functions

Starck f Plus

-  Rearwash
-  Ladywash
-  Automatic lid opening/closing/
-  Electromotive actuated seat/lid
-  Duravit Rimless®
