CONDIZIONI DI VENDITA

PIETRA NATURALE: Unicità e autenticità

Ogni marmo, pietra e granito ha delle specificità uniche, le cui caratteristiche si sono plasmate nel corso dei millenni grazie ad elementi naturali, che conferiscono al vostro spazio di vita un'originalità senza eguali. È inoltre possibile creare qualsiasi cosa da ogni lastra o blocco senza limiti di forma e dimensione.

1. Caratteristiche estetiche

- 1.1 ogni singolo prodotto è di origine naturale con un carattere diverso da lastra a lastra che porta con sé una sua unicità, irriproducibile e non prevedibile.
- 1.2 Le tolleranze cromatiche e di variazioni di venature sono molto ampie e non uguali al campione ricevuto. Di conseguenza, differenze di tono e venature tra campione e fornitura sono da considerarsi naturali e caratteristiche intrinseche del prodotto.
- 1.3 Presenza di microporosità così come quella di sbrecciature sono da considerarsi caratteristiche del prodotto.
- 1.4 Eventuali porosità di diametro superiore a 1,5 / 2 mm potranno essere stuccate se richieste in fase di preventivo.
- 1.5 Prima della spedizione del materiale verrà inviata una foto del collaudo del prodotto, una volta accettata ci sarà impossibile prendere in considerazione un'eventuale modifica e/o contestazione.

2. Lavorazioni e finiture

- 2.1. La finitura lucida è da intendersi con un leggerissimo bisello. La richiesta dell'assenza di bisello va comunicata espressamente alla conferma d'ordine.
- 2.2 I pavimenti lucidi vanno preferibilmente rilucidati in opera da un posatore professionista.
- 2.3 Nel caso di una finitura di anticatura, ottenuta mediante un procedimento brevettato che va ad eliminare le parti più deboli del marmo permettendone anche la successiva spazzolatura a superficie ondulata e opaca senza perdere in luminosità, può provocare delle rotture o sbrecciature che rientrano nelle caratteristiche di questo tipo di finitura.
- 2.4 Lavorazione a massello:
 - 2.4.1. I nostri prodotti vengono ricavati, tramite lavorazioni artigianali, da interi blocchi di pietra.
 - 2.4.2. Ogni singolo pezzo può presentare venature, differenze di tonalità, intrusioni minerali, avvallature, stuccature dovute a caratteristiche naturali del marmo. Tali caratteristiche sono la conferma dell'utilizzo di materiali naturali non prevedibili e non contestabili.

3. Caratteristiche tecniche

- 3.1. trattandosi di un materiale naturale, la superficie tende ad assorbire. Va segnalata la richiesta di trattamento con idro oleorepellenti prima della fornitura.
- 3.2 Nel caso di richiesta di una superficie antiscivolo va richiesta e quotata in fase di preventivazione. Tale trattamento renderà la superficie ruvida e opaca.
- 3.3 Tolleranza sulle misure e sugli spessori +/- 2 mm
- 3.4 Tutti i nostri intarsi presentano uno spessore di 2 cm ottenuto mediante la soluzione 1+1 cm: i pezzi che compongono il disegno, aventi spessore 1 cm, vengono incollati su una lastra anch'essa a spessore 1 cm, per garantire una maggior tenuta durante la rilucidatura in opera e una migliore durabilità nel tempo.
- 3.5 Le palette dovranno essere custodite in luogo asciutto e protetto

4. Prezzi

- 4.1 Dercormarmi: tutti i prezzi e le quantità verranno verificati durante lo sviluppo dei disegni esecutivi
- 4.2 Kreoo: Le collezioni rappresentano un sistema modulare che permette infinite combinazioni. Le marmette verranno quindi fornite a moduli interi, da adattare sul posto ad opera di un posatore professionista. Eventuali richieste su misura verranno considerate fuori standard e il prezzo verrà comunicato di volta in volta.
- 4.3 I prezzi sono esclusi
 - 4.3.1. IVA e tasse
 - 4.3.2 Trasporto
 - 4.3.3 Posa
 - 4.3.4 Pilette, sifoni

5. Conferma d'ordine

- 5.1 L'ordine si intende confermato nel momento in cui viene ricevuto l'acconto della fornitura.
- 5.2 Assieme all'acconto dovrà essere firmata l'offerta, i disegni esecutivi e le foto dei materiali scelti

6. Imballo

- 6.1. Realizzato in gabbie/casse in legno, il materiale è opportunamente fissato internamente con polistirolo e regge in plastica.
- 6.2. Se sono richieste casse fumigate, deve essere espressamente indicato alla conferma dell'ordine.
- 6.3. le casse non sono sovrapponibili, non vanno effettuati trasbordi
- 6.4. L'imballaggio è incluso nel prezzo di vendita.

7. Spedizione

- 7.1 La spedizione non è inclusa nel prezzo di vendita. È possibile richiedere una quotazione al nostro customer service.
- 7.2 Nel caso di richiesta del trasporto, verrà addebitato il costo del servizio. ATTENZIONE non incluso:
 - 7.2.2 Operazioni di scarico sul cantiere, la merce verrà consegnata a bordo strada all'indirizzo concordato
 - 7.2.3 Da indicare se in cantiere c'è la presenza di un muletto o se sarà necessario un camion con sponda idraulica.
 - 7.2.4 Data e orario di scarico dovranno essere concordate direttamente dal cliente finale con il trasportatore
 - 7.2.5 Eventuali danni derivati da operazioni di scarico non adeguate non saranno a noi imputabili.
- 7.3 Il ritiro della merce ordinata deve avvenire entro e non oltre 4 settimane dal collaudo. Oltre tale data:
 - 7.3.1. non è garantita l'integrità del materiale
 - 7.3.2. Verranno addebitati i costi di magazzinaggio

8. Pagamenti

- 8.1 L'avvio della produzione del materiale avviene al momento della conferma dell'ordine attraverso il versamento dell'acconto concordato.
- 8.2 Qualora il cliente decida di recedere dal contratto di acquisto, ufficializzato con il pagamento dell'anticipo, ciò dovrà avvenire entro 5 giorni lavorativi per iscritto e parte dei costi sostenuti per la messa in produzione del materiale verrà trattenuto.

9. Posa

- 9.2 La posa del materiale è esclusa. Eventuali danni o contestazioni derivanti da erroneo stoccaggio del materiale, preparazione dei sottofondi, modalità di posa e installazione non saranno imputabili a Decormarmi e Kreoo

10. Contestazioni

- 10.2 La contestazione va segnalata per iscritto entro 8 giorni dal ricevimento della merce, allegando le foto delle casse al loro arrivo in cantiere e durante il procedimento di apertura. Ogni elemento danneggiato deve essere necessariamente fotografato dentro al proprio imballo.

11. Usura e invecchiamento del materiale

- 11.2 Tutti i prodotti sono realizzati con materiali naturali. Nel tempo, questi materiali saranno influenzati e soggetti alle variabili intrinseche del contesto ambientale in cui verranno installati. Questi cambiamenti sono considerati come previsti e normali risultati della natura di ciascun materiale. non è responsabile per l'usura ragionevole di materiali naturali. Rivendicazioni di usura straordinarie possono essere presentate per la sostituzione entro sei mesi dalla consegna, a discrezione del team.

12. Sviluppo disegni esecutivi

- 12.1 Il servizio relativo allo sviluppo dei disegni esecutivi è completamente gratuito per le prime tre revisioni. Prima di procedere con la produzione del materiale sarà necessario confermare il disegno scelto.
- 12.1 Ogni eventuale revisione eccedente le prime tre prevede un costo aggiuntivo che verrà aggiunto al prezzo del preventivo e comunicato di volta in volta.

13. Collaudo del materiale

- 13.1 ogni ordine fino a 30 m2, prima dell'invio verrà ispezionato e fotografato gratuitamente per essere accettato
- 13.2 nel caso in cui la quantità sia superiore a 30 m2 verrà fotografata una superficie pari almeno al 20% del materiale rappresentativa dell'intera fornitura.
- 13.3. nel caso in cui la quantità sia superiore a 30 m2 e venga richiesta una foto dell'intera fornitura, il costo verrà addebitato.

14. Fornitura serie Living e Bagno collezione Kreoo

- 14.1 Si tratta di prodotti realizzati artigianalmente usando legno massello di larice; ogni fessurazione o crepa del legno è da ritenersi un valore aggiunto e non un difetto, poiché si tratta di un materiale vivo e soggetto alle variazioni climatiche ambientali.
- 14.2 Nel caso in cui gli oggetti Kreoo vengano posizionati all'esterno dovrà essere effettuata una manutenzione del legno ogni 6 mesi con prodotti adeguati e una copertura degli oggetti nei mesi più freddi dell'anno, e da un'eccessiva esposizione ai raggi del sole.
- 14.3 la presenza di intarsi in ottone richiede una manutenzione frequente con pulizia dell'ottone con prodotti adeguati, non toccando la parte di marmo del prodotto che va protetto.

BATHROOM COLLECTIVE

SALES CONDITIONS

NATURAL STONE: *Uniqueness and authenticity*

Marble, stone and granite have unique features, whose essence have been shaped over the millennia, thanks to a natural geological process. This uniqueness gives your living space an unmatched originality.

1. AESTHETIC FEATURES

- 1.1 Every single product is of natural origin, with different features from slab to slab, bringing unique, irreproducible and unpredictable features.
- 1.2 The color and grain variation tolerances are very wide and not always strictly represented by the samples provided. Consequently, differences in tone and veins, between the samples and the actual supply are meant to be considered natural and intrinsic peculiarities of the product.
- 1.3 Presence of micro-porosities, as well as that of natural cracks, are to be considered features of the product.
- 1.4 Any porosity with a diameter greater than 1.5 / 2 mm may be grouted, if requested during the estimate phase.
- 1.5 Before the packaging of any marble good, a set of photo of the products inspection will be shared and, once accepted, it will be impossible to take into consideration any modification and/or dispute and claim.

2. FABRICATION AND FINISH

- 2.1. The glossy and polished finish is provided with a very light bevel. The request for the absence of bevel must be expressly communicated into the order confirmation.
- 2.2 Polished floors should preferably be ultimately polished on site, by a professional installer.
- 2.3 In case of honed finish, please be aware this is achieved through a patented process that eliminates the weakest marble parts, and then the surface is properly brushed. In this way, marble gets an old-fashioned effect, with a wavy and matt surface that reproduces exactly the effect of a natural wearing effect of time, without losing its vibrant brightness. The particular manufacturing of these products can lead to some breaks or chips that cannot be contestable.
- 2.4 Solid carving:
 - 2.4.1. Our products are obtained, through craftsmanship cut, from entire blocks of stone.
 - 2.4.2. Each single piece can present veins, differences in shades, mineral intrusions, depressions, grouting due to the natural characteristics of the marble. These features are confirmation of the use of natural material, therefore not a matter of claim.

3. TECHNICAL FEATURES

- 3.1. Being a natural material, the stone tends to absorb. The request of using a hydro / oil repellent treatment must be specifically demanded before the start of fabrication.
- 3.2 In case of an anti-slip surface request, make sure this is expressly written into the bidding phase and order description. This treatment will make the surface rough and opaque.
- 3.3 Size tolerance on sizes and thickness +/- 2 mm +/- 2 mm
The thickness of all our inlays is 2 cm and it is achieved by a 1+1 solution: the pieces that compose the pattern, which are 1 cm thick, are glued on a slab, which is 1 cm thick too, in order to get a better endurance during the re-polishing on site and a longer durability.
- 3.4 Crates must be stored in a roofed and covered place.

4. PRICES

- 4.1 Decormarmi: all prices and quantities will be verified during the development of the shop drawings.
- 4.2 Kreoo: the collection is composed by a modular system, able to create infinite combinations. For this reason, tiles are provided in modules requiring to be adapted on site, by a professional installer. Any customized requests will be considered non-standard and their price will be calculated separately.
- 4.3 Prices DON'T include
 - 4.3.1. VAT and taxes;
 - 4.3.2 Transportation fee ;
 - 4.3.3 Installation ;
 - 4.3.4 Drain, syphons and/or any plumbing feature.

5. ORDER CONFIRMATION

- 5.1 The order is considered confirmed when the deposit payment is received.
- 5.2 The offer, shop drawings and pictures will be additional confirmations to be processed at the moment of order confirmation.

6. PACKAGE

- 6.1. Package is performed in wood crates. The goods are properly fastened with plastic hooks and protected by layers of polystyrene on the inside.
- 6.2. If fumigate crates are required, this has to be expressly indicated in the confirmation of the order.
- 6.3. Our crates must not be overlapped and no transfers should be done.

6.4. Package fee is included into our sales prices.

7. SHIPMENT

7.1 Shipment is not included into our pricing. It's always possible to demand for a price to our customer service, during the whole process.

7.2 In the event of a request for transport, the cost of the transportation fee will be charged accordingly. ATTENTION: our standard procedure is EXW (ex-works).

Additional notes:

7.2.2 The goods will be delivered as a standard curbside delivery (no inside delivery).

7.2.3 Please indicate if the receiver will be equipped with forklift or if Decormarmi has to provide lift gate, at the moment of the final delivery.

7.2.4 Date and time arrival arrangements will be agreed by the final receiver and transportation company directly.

7.2.5 Damages caused by improper unloading procedures cannot be contestable and imputable to Decormarmi.

7.2.6 The pickup of inspected orders cannot be longer than 4 weeks by the moment of order readiness. After that date Decormarmi cannot guarantee material integrity and will charge for storage fees.

8. PAYMENTS

8.1 The start of fabrication will begin at the moment of order confirmation and the reception of the deposit payment.

8.2 In case the client will decide to withdraw from the purchase contract, having already made the payment of the deposit, this communication will take place within 5 working days in writing from client's end. Part of the costs incurred for the start of production of the material will be retained by Decormarmi.

9. INSTALLATION

Installation cost and service are excluded. Decormarmi will not accept liability nor reimbursement of damages related to improper installation or wrong storage, preparation of the backing, nor any installation procedures out of strict Decormarmi' scope.

10. CLAIMS

Any claim should be submitted by 8 days from the moment of goods reception, sharing full photo set showing crates at the moment of their arrival and/or during their opening. Every damaged good must be photographed inside its original crate.

11. MATERIAL WEAR AND AGING

All Decormarmi products are crafted using natural materials. Over time, these materials will be impacted by and adjust to their environment. These changes are considered as expected and normal results of the nature of each material and are not defects. Decormarmi is not liable for reasonable wear of natural materials. Extraordinary wear claims may be submitted to Decormarmi for replacement within six months of delivery, subject to the discretion of Decormarmi team.

12. SHOP DRAWING DEVELOPMENT

Before proceeding to fabrication, shop drawing release and confirmation are needed.

12.1 The service of shop drawing release is completely free during the first (3) three reviews of the plans /drawings of the project's scope.

12.2 Should more revisions be required, Decormarmi will apply an additional cost related to any further necessary revision time by time.

13. SHOP DRAWING DEVELOPMENT

13.1 Every order containing less than 30 m2 of covering will be entirely photographed and subject to a normal confirmation process.

13.2 In case the quantity is above 30 m2 Decormarmi will be photographing 20% surface of the order' scope, representative of the overall quality.

13.3. In case the quantity is above 30 m2 and the client needs the full inspection of the surface, the cost of the full inspection will be charged to the client.

14. KREOO LIVING AND BATHROOM COLLECTIONS

14.1 Kreoo products are handcrafted pieces result of an artisanal process, made using solid larch wood; any split or fissure of the wood has to be considered an added value and not a defect, since this is natural material, therefore subject to weather and environmental conditions.

14.2 In case of an outdoor application of Kreoo wood products, Kreoo recommends a 6 months maintenance and care and an adequate covering cap during the coldest time of the year and roofed to protect the goods from solar rays.

14.3 Brass inlays require a continuous care and maintenance with adequate products, avoiding the marble parts adjacent to the metal inserts.
