

1897  
**SHAW'S**  
ENGLAND

Handcrafted  
*for life*

**When Shaws of Darwen was founded in the closing years of the 19th century, we had a vision – to make the finest handcrafted fireclay sinks in the whole of England.**

Today, some 120 years on, that vision has been more than realised; Shaws now enjoys, not only a national, but a worldwide reputation for the beauty, quality, craftsmanship and sheer practicality of our unique artisan products.

We're immensely proud of our heritage, and the fact that our sinks are still handcrafted at our premises in the same quiet corner of North West England as they were when we first started out on Valentine's Day 1897. We're also extremely proud that the techniques lovingly used by our time-served craftsmen haven't changed in all those years.

So much so, every handmade Shaws sink carries an impression on its base of the name of the master craftsman who created it. This, along with our Certificate of Authenticity, is your assurance that your investment has been handcrafted for life.

Every Shaws sink  
bears the name of the  
master craftsman who  
created it, by hand.

Iconic, timeless,  
aspirational and  
tactile, each sink is  
an original design,  
handcrafted to give  
a lifetime of service  
and pleasure.

## OUR PROCESS

# Handcrafted for Life

At Shaws we don't believe in mass production; we believe in quality, individuality and authenticity in all we do. It takes time to hand-make Shaws sinks, between three to four weeks in total, using time-honoured techniques that have been passed down from master craftsman to apprentice for well over a century.

Known as 'slip casting', the process begins with a mixture of locally sourced clay and water being poured into porous moulds – by hand, naturally.

When the newly formed sinks are dry enough, craftsmen remove them from their moulds before getting to work doing what they do best – expertly hand-finishing these artisan products through a process of sponging and 'fettling' to create a smooth surface.

It's at this stage that the master craftsman proudly imprints his name on the base of his creation, before leaving the sink to gradually dry out for a period of over 40 hours. Only then are the sinks deemed ready to be prepared with a first coat of glaze, before being glazed for a second time to improve the feel and durability of the product. Firing in specially designed kilns at temperatures of over 1200 degrees Celsius completes this rigorous process.

THE  
– ORIGINAL –  
COLLECTION

With its inspired design and timeless appeal, a sink from our Original Collection makes the perfect, iconic focal point for any traditional styled kitchen.

But more than that, like all Shaws products, these artisan fireclay sinks, with their original designs and details, are handcrafted. What's more, we still use age-old techniques, making them look and feel truly beautiful.

THE  
– ORIGINAL –  
COLLECTION

Traditional, beautiful and practical, the Original Collection represents our premium offering, designed to provide you with a sink of substance, created to add authenticity, charm and character to your room.

*All sinks come standard in white.*

– SINK GRIDS –

Available in 6 sizes.

Designed to complement our sink ranges, our Shaws sink grids offer extra protection and drainage.

Our durable finish is resistant to bacteria, chemicals, stains and odours.

# Our Warranty

At Shaws our promise to you is to provide the best sinks in the world, backed up with outstanding personal customer service.

That's why all our products are not only of exceptional quality, but carry comprehensive warranties to give you total peace-of-mind.

All Shaws sinks carry a Limited **Lifetime** Residential Replacement Warranty

visit [www.luxebydesign.com.au/shaws/warranty](http://www.luxebydesign.com.au/shaws/warranty) for full Terms and Conditions.

**PLEASE NOTE:** our sink dimensions can vary by a plus or minus of 2%, as they are hand-made and shrink during firing. We therefore recommend that your kitchen fitter is aware of this and that no work surfaces or cabinets are cut before measuring your sink. Due to the handcrafted nature and weight of our sinks, we also recommend a specialist kitchen fitter installs your sink and that it is properly supported.

# All Shaws fireclay products *are handcrafted for life.*

## CARING FOR YOUR SHAWS SINK

Shaws sinks are proven to be incredibly durable and long-lasting. To keep your investment looking its best, we recommend it be cleaned daily using a soft sponge or cloth and a non-abrasive cleaning product – a simple solution of soap and water generally does an excellent job.

Although extremely hardwearing (being heatproof, and resistant to impact, chemicals, dirt & stain and odours) not even a Shaws fireclay sink is impervious to damage.

So, if a metal pan or cutlery marks the surface of your pride and joy, we have a range of accessories that will easily restore it to its original beauty.
