victoria ⊕ albert®

The ergonomics of the Kaldera 4, Kaldera 5 and Kaldera 6 baths have been carefully considered for maximum user comfort and relaxation as well as ease of installation.

The range includes three sizes of Kaldera bath - ergonomically designed for maximum comfort and suitable for drop-in and undermount installations. The complementary Kaali and Kaldera undermount basins are available in different shapes and sizes to suit your design requirements. Choose from round, oval or rectangular formats.

Easy to clean: the naturally glossy surface is easy to wipe clean.

Warm: warm to the touch with high insulating properties, keeping your bath water warmer for longer.

Scratch and stain resistant: the naturally white, glossy surface is incredibly durable, and resistant to hair dyes and bath oils.

Strong: QUARRYCAST™ is solid all the way through - more than twice as hard as acrylic with no creaking or flexing.

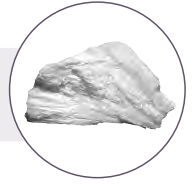

Lightweight: surprisingly lightweight, the average weight of our baths is just 72kgs.

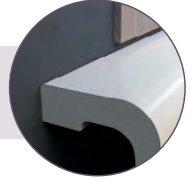

QUARRYCAST™

Like all Victoria + Albert baths and basins, the collection is made from 100% QUARRYCAST™, a unique blend of Volcanic Limestone™ and high-performance resins. Volcanic Limestone™ is the name we give to the special white rock that is perfect for making baths and basins. As the stone-rich alternative to both cast iron and acrylic it is 100% one piece, hand finished and packed with naturally desirable properties.

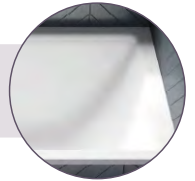

Made from 100% QUARRYCAST™ - rich in Volcanic Limestone™

Accurate diamond cut rim edging - ideal for back-to-wall or corner installations

Ergonomic single ended recline of 32° - provides maximum comfort

Four adjustable feet - for quick installation
